

Sagar Shah, MS, PMP

Lead Technical Program Manager | SAFe Agile Hybrid Delivery | Multi-Release Coordination

Pune, India | +91-70307-45678 | shahsagar0@gmail.com | I-140 Approved

PMP, PMI-ACP, CSM, SAFe Practitioner, ITIL

SUMMARY

Lead Technical Program Manager with 19+ years of experience orchestrating complex, multi-team Agile and hybrid delivery programs in fast-paced, regulated environments. Proven ability to scale organizational revenue, optimize infrastructure efficiency, and govern multi-million dollar initiatives by seamlessly aligning Product Management, enterprise engineering, and shared services teams. Advanced Jira practitioner equipped with a deep portfolio of delivery certifications, specialized in data-driven earned value analysis and continuous process optimization.

CORE COMPETENCIES

Methodologies: Agile, SAFe, Scrum, Kanban, Hybrid, SDLC, DevOps

Program Management: Multi-Release Coordination, Cross-Team Dependency Management, Risk Mitigation, PMO Governance

Finance & Operations: Budget Management & Cost Control, Shared Services, P2P, O2C, General Ledger, Fixed Assets

Execution: Sprint Planning, Backlog Refinement, Impediment Escalation, Executive Status Reporting

PROFESSIONAL EXPERIENCE

Persistent Systems Limited

Dec 2021 – Present

Sr. Program Manager

Pune, India

- Delivered a \$15M enterprise Managed Care Platform (MCP) transformation program, achieving 98% budget adherence and modernizing legacy CareTech processes by coordinating integrated case management, referral, and billing capabilities across multiple Agile delivery workstreams.
- Governed the strategic integration of enterprise platforms with PeopleSoft Finance, driving cross-functional teams of 50+ members to improve financial data accuracy and reconciliation across key Procure-to-Pay (P2P), Order-to-Cash (O2C), and General Ledger (GL) streams.
- Optimized infrastructure efficiency and drove platform deployments, reducing infrastructure costs by 20% and improving platform performance by 30%, by directing cross-functional teams across Product, Engineering, and Business Operations during AWS cloud modernization workstreams.
- Streamlined operational and financial workflows, increasing engineering productivity by 15% and reducing production incidents by 20%, by orchestrating complex enterprise integrations with RMA, PeopleSoft, and DataMart systems while implementing data-driven Jira dashboards.
- Ensured continuous flow of value and improved delivery predictability, averting critical release delays and reducing programmatic risk, by establishing executive governance frameworks, risk management protocols, and release-planning strategies with senior stakeholders.

London School of Digital Business

May 2021 – Dec 2021

Chief Projects Officer

- Scaled organizational revenue, growing top-line revenue from \$2M to \$3.2M, by executing structured financial reporting and coordinating concurrent program releases across multiple cross-functional teams.
- Drove data-driven executive decision-making, maintaining 100% visibility on program health, by developing comprehensive delivery dashboards and robust RAID logs.

AtoS-Syntel Inc.

July 2013 – May 2021

Senior Project / Delivery Manager – Ameriprise Auto & Home Insurance / AmFam

- Restored client delivery performance to an 'A' rating, significantly reducing delivery bottlenecks, by facilitating Agile release trains, backlog prioritization, and rigorous cross-team dependency management.
- Managed multiple enterprise software initiatives and large-scale AWS cloud migrations, implementing automated DevOps pipelines, CI/CD deployment processes, and cross-functional engineering coordination.
- Accelerated system efficiency, improving batch processing performance by 40%, by executing data-driven workflow analysis and earned value tracking across distributed onshore/offshore teams.
- Maintained strict programmatic alignment with executive timelines, providing structured reporting via Jira and Adobe Workfront, by managing WBS, Gantt charts, and burndown charts throughout execution.

Larsen & Toubro Infotech Ltd.

Feb 2010 – July 2013

Project Manager – Business Insurance, Travelers, US

- Ensured seamless ICD-10 implementation, meeting strict regulatory release timelines, by acting as Product Owner, driving backlog refinement, and tracking velocity metrics.
- Led execution across multiple concurrent workstreams and insurance platform modernization programs, developing comprehensive WBS, RAID logs, and smooth legacy system transition onboarding.

Macro Technologies

Oct 2008 – Feb 2010

Business Analyst – Regence BCBS, OR

- Facilitated healthcare regulatory compliance and platform upgrades, successfully guiding HIPAA 5010 and Facets platform readiness while supporting Salesforce sales optimization initiatives.

Siemens Healthcare

Jul 2008 – Oct 2008

Business Analyst

Illinois, US

- Accelerated deployment of the Syngo Imaging platform by translating ambiguous stakeholder needs into rigorous functional specifications and operational requirements.

University of Central Florida

Aug 2006 – Jul 2008

Business Analyst

Florida, US

- Engineered clear system workflows for the Seminole County Work Management System by executing structured JAD sessions and establishing SharePoint document management protocols.

Shah N. G. Company

July 2005 – May 2006

Co-owner

India

- Standardized localized operations and staffing models, designing a long-term five-year strategic growth blueprint and launching a functional distribution center to secure business scaling.

TECHNICAL SKILLS

PM & Agile Tools: Jira (Advanced), MS Project, Azure DevOps, Confluence, Smartsheet, Adobe Workfront, Rally, ServiceNow

Cloud & Infra: AWS (EC2, EKS, Fargate, Lambda, RDS, VPC, IAM, SNS/SQS, DynamoDB, CloudFormation)

Platforms & Tech: .NET, .NET Core, Web API, MVC, SQL, Oracle

Reporting & Analytics: Power BI, MS Excel – delivery dashboards, trend analysis, predictability metrics

AI & Emerging Tech: Generative AI, Agentic AI, LLM Orchestration, RAG, Predictive Modeling, Google AI Leadership

Compliance: HIPAA, SOC 2, CCPA, PCI, SIEM, Guardium

EDUCATION

University of Central Florida, Orlando, FL – MS Industrial Engineering (Engineering Management Track)

Government College of Engineering, Pune, India – BS Electrical Engineering
